

# Prowise iPro Whiteboard Extension Kit

The Prowise iPro Whiteboard Extension is designed for customer usability. The four-panel whiteboard system is mounted to the VESA clamps to which you attach the screen. Naturally, you still have access to all the features and ports of the Touchscreen.

The Prowise iPro Whiteboard Extension has two whiteboards that allow you to write down notifications that always need to remain visible. Think of weekly tasks, daily schedules and general announcements.
